Preface

EACH of the four directories of Cornell University issued in the past have carried the title *Ten Year Book*. Editions were issued at regular intervals—in 1878, 1888, 1898, and 1908. The *Ten Year Book* was a complete record not only of Cornell alumni, but of undergraduates, and of all officers of administration and instruction since the founding of the University.

This book, the *Cornell Alumni Directory*, the first to be issued since 1908, contains a list of all former students who have received Cornell degrees not later than February, 1922, and all non-graduates who matriculated not later than June, 1918. With the increased number of students, exigencies of space have prevented the inclusion of either the names of undergraduates or the names of officers of administration and instruction.

Every means have been employed to keep within bounds the size and weight of this book—thin paper, small type, narrow margins, and abbreviations in every case where the meaning would not be affected. It has been our aim to provide a volume of such reduced size and weight as would permit of its general use as a handbook of the University, to be carried on travels as a means of enabling alumni to keep in close touch with each other. It is the hope of the committee that the usefulness of this book will justify publication of revised lists at not infrequent intervals.

In recapitulations following the main alphabetical list appear groupings along geographical lines and class lines, and a list of subscribers to the Semi-Centennial Endowment Fund and to the Alumni Fund. The geographical listing is that of the last known mailing address. The class listing is on the basis of classes with which individuals have expressed or implied a desire to be associated; such are not necessarily the years in which degrees, if any, were awarded. The first section of the book contains miscellaneous information of general alumni interest.

The feature of this publication which in particular marks its distinction from former issues of the *Ten Year Book*, and from alumni publications of other institutions, is that the University Board of Trustees authorized not only the publication of an alumni directory but a directory that would be available without charge to each former student who should request a copy. Carrying out the instructions of this authorization, and in order to bring the information up to as recent a date as possible, letters have been mailed to every

former student. These letters have requested a checking of name, address, class and occupation of each individual, with the statement that unless notification were received the entry in the directory would be made according to the best information available to the University. The letter also gave each former student an opportunity to request a copy of the directory.

Sincere appreciation is expressed to the many thousands of Cornellians who have made possible the early publication of the book by their cooperation in returning with their approval or correction the records sent to them during the past few months. Appreciation is also expressed to the officers of those alumni clubs and associations who have cooperated with the alumni office in sending promptly notices of deaths or changes of address. On the other hand, the completeness and accuracy of the book have been affected by the non-receipt of information from thousands of alumni.

In the compilation of the directory the committee has made one substantial change in its original plan. Occupations are not included. This omission has been made necessary both by the lack of any information whatever with respect to a large proportion of the alumni, and by inadequate information with respect to many others. The committee concluded with regret that it would be best to make no reference to occupations in this present volume.

Names of 37,662 former students are recorded in this edition. This number includes 3,667 deceased, and 2,690 "lost." The information is that on the records of the alumni office on March 8, when the edition went to press. Alumni who detect errors and omissions will perform a distinct service in reporting them to the alumni representative at the University.

This book has been issued under the direction of the undersigned committee, with the detail of preparation and manufacture delegated to the office of the alumni representative. The principal credit for the results goes to Miss Clara Howard '14. It is to her management and loyalty that the speed of publication and accuracy of record have been attained. The committee also wishes to testify to the cooperation of the entire force of the alumni office, and to express appreciation to David F. Hoy '91 for many hours of expert volunteer service, and to R. W. Sailor '07, for personal interest shown as president of the Cornell Publications Printing Company, the printers of the book.

The Principal Alumni Organizations The Foundation, History, and Government of the University

Associate Alumni of Cornell University

FEW alumni realize that the Associate Alumni of Cornell University was the first of all the various Cornell clubs and associations established. Born in the early years of the University, it has been for nearly fifty years the only general and national Cornell alumni association.

The Associate Alumni automatically includes in its membership all the thirty thousand students who have attended Cornell, graduates and non-graduates. Its membership also includes all the active Cornell clubs scattered throughout the world. Essentially it is "The Alumni Association," the entire body of former students of the University. Although one of its chief obligations is the election of two trustees each year, its field is everything that concerns the University in any manner.

By the charter of the University the graduates are entitled to elect two members of the Board of Trustees each year. At a meeting called for the purpose and held on June 26, 1872, the day preceding the annual Commencement, representatives of all the classes graduated being present, the alumni formed the organization under the name of the Associate Alumni of Cornell University. The declared object of the association was to promote in every proper way the interests of the University and to foster among the graduates a sentiment of regard for each other and of attachment to their Alma Mater. On May 19, 1903, the association was incorporated under the general laws of the State of New York.

By an amendment to the charter of the University, passed May 15, 1883, permitting members of the alumni, not present in person, to vote by written ballot at the annual election of trustees, the Treasurer of the University is required to keep "a registry of the signature and address of each alumnus." It is therefore important that each alumnus keep the Treasurer of the University informed of his full address (city, street, and number), and notify him immediately of any change.

The following ordinance was adopted by the Board of Trustees, October 24, 1888. "All graduates of the first degree, in any of the departments of Cornell University, and all persons who have been admitted to any degree higher than the first in said University, shall be alumni of said University, and, as such, be entitled to vote for alumni trustees under and in pursuance of the provisions contained in chapter 763 of the Laws of New York, passed in 1867."

Although the Associate Alumni includes within its membership every former student of the University, the backbone of the association is the local alumni club. It is largely supported by the clubs through an assessment on them of a certain sum each year for each resident member. The amount of this sum, established by the board of directors of the Associate Alumni, has usually been twenty-five cents per member.

The Associate Alumni has held two conventions, in Cleveland in May 1921, and in Chicago in April 1922. The success of these meetings was such as to gain the unanimous decision to hold annual conventions; in the future these conventions will be held in the fall. The Cornellians in Pittsburgh will be the hosts for the next convention to be held in the fall of 1922.

Cornell Association of Class Secretaries

THE Cornell Association of Class Secretaries was organized in 1905. Its object is to see that proper and uniform statistics of each class are kept; that the regular class reunions are organized in a way to secure the greatest attendance from their members; to stimulate the work of the secretaries by proper cooperation; to secure a greater unity of action and feeling in the various classes and in the alumni body as a whole. The active membership consists of the class secretaries.

The Cornellian Council

THE CORNELLIAN COUNCIL was founded in 1908 to stimulate alumni interest in the financial support of Cornell University. Its membership is made up of one representative from each of the last forty classes graduated, thirty members at large elected by the Council, and an indefinite number of honorary members.

The founders of the Cornellian Council had in mind the aim of doing away with indiscriminate solicitation of the alumni and of having all appeals to the alumni for University needs made by one organization vested with authority. All subscriptions obtained by the Cornellian Council, as soon as paid, are turned over to the Treasurer of the University and are set aside in a special fund known as the Alumni Fund. At the end of each fiscal year the Trustees, upon the recommendation of the Cornellian Council, appropriate the Alumni Fund to the most vital needs of the University.

The larger part of the subscriptions to the Alumni Fund are unrestricted and are therefore available for appropriation by the Trustees where most needed. Gifts to the University through the Cornellian Council may however be allocated for special purposes.

The work of the Cornellian Council developed slowly but steadily from 1909 to 1915, during which period \$60,000 was placed at the disposal of the Trustees by the Cornellian Council. From 1915 to 1917 the annual gift of the alumni to the University through the Cornellian Council was more than trebled, reaching for the fiscal year ending June 30, 1917, \$63,223. In spite of America's entry into the World War, the Alumni Fund held its own through the war years and for the fiscal years ending June 30, 1918 and June 30, 1919 the average gift of the alumni to the University through the Cornellian Council was more than \$70,000. A few subscriptions were lost during the war period due to the fact that a large number of subscribers entered the service, but this was more than made up by the generous responses of other alumni to an appeal by the Council for gifts of Liberty Bonds.

The Semi-Centennial Endowment Campaign started in earnest in the fall of 1919 and the Cornellian Council for the time being set aside its work of promoting the Alumni Fund and assisted with its entire organization in the work of the Endowment Committees. Nearly six and one-half million dollars was raised for the University.

During the brief existence of the Council more than ten thousand Cornellians and other friends of the University have subscribed to the Alumni Fund and more than \$600,000 has been placed at the disposal of the Board of Trustees. The larger part of this sum has been used toward emergency bonuses for professors during the war, toward the cost of construction of Founders' Hall, toward permanent increases in professorial salaries, toward the cost of a tract of land adjoining the campus, toward the cost of construction of the new baseball field, toward

University operating expenses, toward the cost of maintaining the office of Alumni Representative, and the first \$20,000 raised was added to the permanent endowment of the University.

Upon the recommendation of the Council, the Board of Trustees has voted to construct the fifth unit of the new residential halls, to be financed from the Alumni Fund and from the income from the building.

The plan under which the Cornellian Council has operated has been proven to be fundamentally sound. The gifts of the alumni to the Alumni Fund and to the Semi-Centennial Endowment Fund have been most generous but the University is still in need of additional funds and will always need additional funds and it will be the constant task of the Council to attempt to provide for emergencies as they arise from time to time.

Cornell University: Foundation and Endowment

Cornell University was incorporated by the legislature of the State of New York on April 27, 1865, and to the University there were appropriated the proceeds of the sale of land scrip representing nine hundred and ninety thousand acres of public lands granted to the State in accordance with the provisions of an Act of Congress, approved on July 2, 1862. The amount realized from the State's sale of this land scrip was \$688,576.12.

Toward the endowment and maintenance of the new university, Ezra Cornell, at its foundation, donated \$500,000, and two hundred acres of land with useful buildings, along with several smaller gifts for special purposes.

A large portion of the land scrip sold by the State of New York was purchased by Ezra Cornell under contract providing that the profits derived from the sale of the lands should accrue to Cornell University. Under this contract of purchase, and by the wise administration of Ezra Cornell and the Board of Trustees through its Land Committee, of which Henry W. Sage was for many years chairman, Cornell University has up to July 1, 1921, realized \$5,049,121.92.

Cornell University was opened on October 7, 1868.

The lands and buildings and the equipment of the University have an estimated value of \$9,068,661.73. The productive and other funds of the University amount to \$19,261,011.30.

The current income of the University for the year 1920-1921 was \$4,888,315.71. Of this amount, \$1,055,603.41 consisted of tuition and laboratory fees; \$1,533,115.75 was appropriated by the State of New York for the College of Agriculture and the Veterinary College; the residue of \$1,299,596.55 came from general investments and from miscellaneous sources. Gifts during the year amounted to \$1,419,824.50.

The expenses of the University for the corresponding period were \$4,771,689.59. The salaries of members of the instructing staff amounted to \$1,791,347.81; departmental expenses were \$868,291.33.

A detailed statement of the finances of the University is included in the annual report of the Comptroller, which accompanies the annual report of the President; this may be had gratis on application to the Secretary of the University.

GOVERNMENT OF THE UNIVERSITY

The government of Cornell University is vested in a President elected by the Board of Trustees, and a Board of Trustees, consisting of the President of the University and forty-two other members, of whom seven are ex officio, viz.: the Governor of the State of New York, the Lieutenant-Governor, the Speaker of the Assembly, the Commissioner of Education, the Commissioner of Agriculture, the President of the State Agricultural Society, and the Librarian of the Cornell Library. The eldest lineal male descendant of Ezra Cornell is a trustee during his life. Of the remaining thirty-four members, fifteen are elected by the Board itself for a term of five years, ten are elected by the alumni of Cornell University to serve for five years, five are appointed by the Governor of the State of New York for the same term of service, three are elected by the University Faculty for terms of one, two, and three years, and one is annually elected by the State Grange.

The two trustees chosen by alumni each year are elected by transmitted ballot. The franchise may be exercised by every person holding a Cornell degree either baccalaureate or graduate. Any person can be placed in nomination by ten Cornellians eligible to vote, such nominations to be sent to the treasurer of the University not later than April 1. As soon as practicable after April 1, the names of nominees, with accompanying biographies and ballots, are sent by the treasurer to every degree holder. Votes may be cast until the Monday preceding the commencement meeting of the Associate Alumni, held in Ithaca in June.

THE PRESIDENTS OF CORNELL UNIVERSITY

1867-1885.....	Andrew Dickson White
1885-1892.....	Charles Kendall Adams
1892-1920.....	Jacob Gould Schurman
1921——.....	Livingston Farrand

CORNELL UNIVERSITY: ITS FACULTIES

1. *The University.* Cornell University comprehends the Graduate School; the College of Arts and Sciences; the College of Law; the Medical College (including the Medical College in New York City and the Ithaca Division of the Medical College); the New York State Veterinary College; the New York State College of Agriculture; the College of Architecture; the College of Engineering (comprising the School of Civil Engineering, the Sibley School of Mechanical Engineering, and the School of Electrical Engineering). The New York State College of Agriculture and the New York State Veterinary College are administered by Cornell University, and their work is organically connected with that of the University.

2. *The University Faculty.* The University Faculty consists of the President of the University, who is ex officio the presiding officer, and the Professors and Assistant Professors who are members of the special faculties, the Librarian and the Assistant Librarians in the University Library, the Registrar, the Secretary of the University and the Dean of Women. The Professors and Assistant Professors in the departments of (1) Military Science and Tactics, (2) Physical Education and Training, and (3) Hygiene and Preventive Medicine are not members of any special Faculty but are members of the University Faculty. It is the function of the University Faculty to consider questions which concern more than one college and questions of University policy; and it has disciplinary jurisdiction over students of the University except for unsatisfactory work, for which, discipline is entrusted to the respective special faculties.

3. *The Faculty of the Graduate School.* The Faculty of the Graduate School consists of the President, who is ex officio the presiding officer, and all Professors and Assistant Professors who are actively engaged in supervising the work of graduate students as members of the special committees in charge of major and minor subjects. Instructors who hold the Doctor's degree are also eligible for membership on the special committees in charge of the work of graduate students.

4. *The College Faculties.* Each special faculty, except that of the Graduate School, is composed of the President, who is ex officio the presiding officer, and all Professors, Assistant Professors, and Instructors who give instruction to regular students in the department or departments under the charge of that Faculty or to graduate students in the corresponding division of the Graduate School, but

instructors do not have the right to vote until after four years of service as such, here or elsewhere. The Librarian of the College of Agriculture is a member of the Faculty of Agriculture but not a member of the University Faculty. The Secretary of the Ithaca Division of the Medical College, who is the executive officer thereof, is a member ex officio of the Faculty of Medicine in New York City, and the Dean of the Medical College in New York City is a member ex officio of the Faculty of Medicine in Ithaca. Subject to the right of revision by the University Faculty on all matters affecting general University policy, it is the duty of each special faculty to determine the entrance requirements for its own students; to prescribe and define courses of study for them; to determine the requirements for such degrees as are offered to students under its jurisdiction; to enact and enforce rules for the guidance and government of its students in their university work; to recommend to the Trustees such candidates for degrees as have fulfilled the requirements; and in general to exercise jurisdiction over all other educational matters in its college.

The Cornellian Council and Semi-Centennial Endowment Subscription

The consolidated list in this section is published as an honor roll of all Cornellians who have ever subscribed to the Cornell University Alumni Fund through the Cornellian Council or to the Semi-Centennial Endowment Fund.

The subscribers to the Alumni Fund through the Cornellian Council are marked with a dagger. The subscribers to the Semi-Centennial Fund are marked with an asterisk. The subscribers to both funds are marked with both a dagger and an asterisk.

This list is designed to be complete as respects Endowment Fund subscribers up to the close of the Endowment Campaign on December 31, 1920, and with all Cornellian Council subscribers up to March 1, 1922. So far as the records give the information, the names of all those Cornellians who have died since their subscriptions were made have been eliminated.

The Cornellian Council,

HAROLD FLACK, *Executive Secretary.*
